

If Gnats

"If gnats were BBQ flavored, it wouldn't be so bad."

Grant Frazier - Horn Sergeant

The June camps are now complete with the ENTIRE SHOW on the field as of June 21st. The corps is quickly ramping up for its first competitions on July 10 and 11 in Valdosta, GA then Orlando, FL. Having a completed show will allow the audience an early season opportunity to fully immerse themselves into the show's storyline, "X - Drum Corps Evolved." The corps worked through 3 consecutive 3 day camps at North Port High School to get the show completely down on the field. In the all age world this would be the equivalent to everyday. While both the brass and percussion increased their numbers in June, we are still looking for two trumpets, one lead baritone, and at least 3 guard to fill the corps out.

That's it for now. The uniforms are fitted and the equipment is checked out. And yes, if gnats were BBQ flavored, it really

would not be that bad...North Port, FL is home to small dog size gnats that tend to be around when taking a huge breath before an attack. YUM!
